Chemical industry

Higher safety, less cost

Electrical installations are multiplying and diversifying to meet the new needs of industries. For their management, Unex designs insulating solutions that guarantee the safety of goods and people, enhancing plant productivity.

MATERIAL CLASSIFICATION	ADVANTAGES	BENEFITS
Insulating material	<p>Material is safe in itself. There is no possibility of leakage current towards the conduction:</p> <ul style="list-style-type: none">• The risks of indirect contact are reduced.• Possible sources of fire are reduced (electric arcs, hot spots...). <p>Maintenance-free. No need for grounding or additional protection elements that require periodic maintenance.</p> <p>Corrosion resistant material.</p>	<p>Greater safety. Lower risk of electrical accidents. Fewer stops.</p> <p>Greater plant profitability.</p> <p>Greater durability of the installation.</p>

Complete solution in aggressive environments

Unex insulating cable management systems are endorsed by more than 45 years experience in installations under different atmospheric conditions and in aggressive environments. Therefore, our products can be mounted in most industries submitted to corrosion:

- Chemical (detergent, paint, etc.).
 - Petrochemical.
 - Pharmaceutical.
 - Paper industry.
 - Fertilizers.
 - Metallurgical (galvanizer, steel, etc.).
-

Behaviour against chemical agents

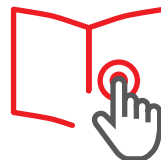

Unex solutions assure good performance in corrosive environments and resist to the most common chemical agents (acids, oils, alcohols, etc.), according to ISO/TR 10358 and DIN 8061.
