A system adapted to each work space

Furniture boxes can be:

- Extended according to the requirements.
- Easily relocated, thanks to their removable fixing system.

Removable furniture box:

Fixed furniture box:

Without flexible runway:

Other possibilities:

Mechanical safety

Solid

Suspended ceiling and floor fixings are secured by screws.

Strong fixing to furniture

Both fixing systems assure that the furniture box remains firm and holds the pull of socket outlets.

Electrical safety

IP4X protection degree on the furniture box inlet through the flexible runway. Cables are well-retained to avoid tugs and failures in electrical contacts.

The system's own adapters maintain the required protection degree **IP4X** when connecting to socket boxes as well as to trunking, modular box, service pole and service post.

Easy and comfortable mounting

From the suspended ceiling

Cables are placed without threading.

Fixing with screws.

Embellishing Piece Covers
the runway's entry from the suspended ceiling plate.

Encircling rings:

- Retaining and arranging cables.
- Easily mounted and removed to achieve the desired length.

Side covers

Pressured mounted with screws.

Removable fixing:

- Relocation without damaging the furniture.
- Adjustable to several thicknesses.
- Allows pre-wiring the socket boxes.
